The Director of Central Intelligence

Washington, D.C. 20505

Critical Intelligence Problems Committee

19 November 1986

DDW-193

WEEKLY ACTIVITY AND STATUS REPORT FOR THE DD/ICS--19 November 1986CIPC Organizational Activities

- 25X1 ● [] has left for her new assignment on the Human Resources Task Force.
- 25X1 ● Jim met with [] on 17 November and discussed the DIA report on the POW/MIA issue and the CIPC/DIA interface.
- Jim also met with a TRW group to discuss integration of a Space Operation Intelligence Center (SOIC) within the Space Operations Center (SOC) in Colorado Springs. This facility will be of interest to the Intelligence Community at large. TRW is the prime contractor for SOC integration.
- Yesterday, Ray met with OIT to review CSEM programming requirements. OIT is making a concerted effort to find us a programmer, however, programmers are hard to come by these days.

25X1

SDI - []

- The SDI draft report is being coordinated. Representatives from ICS/PPS, the HUMINT Committee, the SIGINT Committee, and--a pleasant surprise--DIA have expressed general satisfaction with the report. Highly favorable comments on the draft have been received from FIPC and STAP, and the STAP's Executive Secretary will show it to [] in the near future. [] will be getting an informal SDIO view from []
- 25X1 [] Except for DIA, specific comments should be available for consideration this week; DIA is unlikely to commit itself before the end of the month. A clean draft should be available by mid-week so CIPC members can have a copy in time for a CIPC meeting in early December.

NFIP Support for Limited Military Operations

- Paul is putting the final touches on yet another version of the study. This one calls for a senior review group to meet occasionally to examine how the Community is doing in providing support. It no longer recommends that DIA serve as the focal point or that new entities be created. Paul plans on having the draft out this week and the working group will meet either in late November or early December to finalize coordination.

Force Multiplier -

- The Force Multiplier Working group met on 12 November to discuss the initial set of contributions most of which have now been submitted. They are being used in the preparation of a draft report that is due by the end of November.

25X1

Collection Strategy Evaluation Method (CSEM) -

- The "Prototype Demonstration Briefing" of the CIPC CSEM is ready for review. Last week Willi further reviewed the briefing and made minor revisions.
